

Basic Info

Model NO.: ABIS0188

Runner: Cold Runner

Design Software: AutoCAD

Installation: Fixed

Certification: ISO

Standard: HASCO

Customized: Customized

Trademark: ABIS

Transport Package: Plywood Case

Specification: customized

Origin: Guangdong, China

HS Code: 8480710

ABIS was founded in 1996, as starting from CNC processing in a small tooling building in Chang'an town, with 22 years experience in custom tooling and injection molding, nowadays we have become one of the global famous mold makers in manufacturing large plastic injection molds. With the modern business management system and ISO9001:2008 Quality System guideline, the sophisticated production techniques, the advanced manufacturing equipment, and our qualified and dedicated team, we are full of capabilities and have great confidence in offering you professional one-stop solution of mold designing, mold making, injection molding and beyond-value service. We serve a broad range of customers in the field of Auto Parts, Aero parts, Household Appliance, Industrial and Beauty. ABIS make over 300 molds per year, mainly of the molds and plastic parts are exported to America, Germany, France, Turkey, Italy and other countries worldwide. We have established long-term cooperation with our clients and are continually improve top quality molds and plastic parts to our clients, establishing close strategic partnership to keep customer's satisfaction and success, growing up together with customers.

FAQ

Below is a list of answers to most frequently asked questions about ABIS

Q: Which kinds of equipment in your workshop?

A:Our company has 14 sets of computer CNC machining centers, high-speed carving CNC 9 units, large gantry CNC (military grade) 2 sets of machining centers, EDM machine 6, currently the world's most advanced double spark machine, precision grinding six , three large water mill, lathe, milling machine 10, radial drill two sets, desktop drilling machine, deep hole drilling, 3 sets of 8 Fast thread cutting and other processing equipment, as well as ancillary products measured using three measurements yuan, two MEs, projection measuring instrument, hardness tester and other equipment

Q:What kind of payment conditions do you accept?

A:Usually we accept standard payment conditions - that is: 40% of total prices down payment, 40% on mould first trial and 20% on mould delivery. Particularly, in case of bigger contracts. The preferable forms of payment are wire transfer and letters of credit. We often use a combination of those.

Q:Can you provide the steel certificate and heat-treatment certificate?

A:Yes, we can. The steel supplier and heat-treatment factory can provide the certificates.

Q:How long is the lead-time for a mould?

A:It all depends on the mould's size and complexity. Usually, the lead-time is about 25-65 days.
